Keywords: Adobe Premiere 6.0

Abstract:

The rapid development of the multimedia world and the competition becomes more intense also because they are supported by the development of an increasingly sophisticated information technology lately. So that at present no longer need to manually process the video with the price of equipment is difficult to reach the public. But there are a few things to note in this video processing to achieve maximum results and satisfaction. Adobe Premiere 6.0 software's presence was more helpful in processing the video for a familiar interface design for the community especially output Adobe software users
